• Managed operations, logistics, transportation, and event execution
• Demonstrated strong leadership and coordination skills in ensuring the success of the festival

EXPERIENCE

ABACUS DESK IT SOLUTIONS | Software Engineer - Frontend
Faridabad | Sept-2023 - Present

• Spearheaded the development and maintenance of CRM tools over 20 projects using Angular, demonstrating proficiency in frontend development and enabling effective client relationship management.

• Utilized SCSS and Angular Material to design and implement diverse components, ensuring the creation of visually appealing and responsive user interfaces tailored to project requirements.

• Played a pivotal role in fostering collaboration among cross-functional teams, facilitating seamless transitions of new features and updates into existing projects to meet project deadlines and objectives.

• Acted as a primary liaison with clients, effectively gathering and analyzing product requirements and feedback to drive feature development and enhance product functionality and usability.

• Engineered a robust progress bar feature, empowering users to download extensive datasets in manageable chunks, thereby optimizing performance and user experience.

• Led the successful migration of an application from Ionic to React Native, leveraging advanced skills in both frameworks to enhance app performance, scalability, and user engagement.

• Developed and implemented user-engaging dashboards in React Native, delivering intuitive data visualization solutions that enhanced user interaction and facilitated data-driven decision-making.

• Innovatively designed an Order module with integrated product recommendation capabilities, resulting in a notable 15% increase in the total amount per order through strategic upselling and personalized user experiences.

NEETPREP GOODED TECHNOLOGIES PRIVATE LIMITED | Software Engineer Intern
New Delhi | Aug 2023 - Sept 2023

• Developed dynamic, reusable components for product pages using React and CSS, enhancing UI efficiency and consistency.

• Expertly crafted HTML emails with pre-2000 CSS, achieving responsive and visually appealing layouts without relying on CSS Grid or Flexbox.

• Automated email delivery utilizing AWS SES, streamlining communication processes.
